To Whom It May Concern:

Pam Beckham is an outgoing and compassionate person who strives to always improve and increase her knowledge and skills, as well as take great care of patients.

Working with Pam for approximately six years, I had the privilege of observing Pam care for our patients and be a leader for others in the office. She was gracious and willingly shared her experience with those around her. Pam was someone I could always depend on and know she would not only complete a task, but do it to the best of her ability.

To many people within the office she was a teacher. She takes pride in her work and has an amazing work ethic, which is difficult to find. It was an honor to work with Pam, but especially to call her my friend. I highly recommend Pam and know she will succeed in any endeavor she pursues.

Sincerely,

Carly Mauch, PA-C
